Mr. Bryan's speech of acceptance of the I Democratic nomination was entirely without market influence. The volume of transactions was the smallest for the week so far, and there were periods dur-ing the day when it looked as if the mar-Wabash pfd... ket was again about to relapse into dullness; but the fluctuations were wide enough to afford opportunities to make speculative turns, and as long as this continues to be the case a fair degree of activity may be looked for.

Some damage was said to have been caused by excessive rains in portions of the cotton belt, and this was made the basis for a sharp advance in the price of the staple in the early trading; but a reaction ensued on heavy offerings at the advanced quotations. The grain markets were heavy, partly on the satisfactory weather reports and partly on the estimate of the Canadian census bureau, which placed the wheat crop of the Deminion at 124,600,000 bushels, an increase of 34,000,000 bushels over last year, and other crops at relatively high figures.
